PROJECT EXPERIENCE

WEATHER FORECAST APPLICATION

- Developed a weather forecast application that fetches real-time weather data using an API.
- Implemented features such as displaying current weather, future forecasts, and user-friendly navigation.
- Integrated responsive design principles to ensure compatibility across devices.

To-Do List Application

- Built a dynamic and interactive to-do list application where users can add, edit, and delete tasks.
- Employed React hooks for state management and ensured a responsive design using CSS.

TIC-TOK-TOE

- Created an interactive Tic-Tac-Toe game with a user-friendly interface.
- Implemented game logic using JavaScript, enabling two players to compete.
- Developed dynamic win-draw-lose detection and reset functionality.
- Designed responsive layouts to ensure smooth gameplay across devices.
